AMERIKIOSKS — AUTOMATED RETAIL EXPERIENCE

DELTA SERIES | COMPACT CLASS

DELTA 7

Compact Footprint. Full Retail Capability.

The compact end of the range, for corridors, break rooms and lobbies where nothing wider will fit. Seven adjustable shelves carry 54 selections and roughly 336 to 630 units. **Pusher and coil motors mix on the same shelf**, a vertical zero-drop elevator lowers every vend, and the delivery door sits low at the front of the cabinet, easy to reach standing or seated. A 10" touchscreen, cashless payments, LED lighting, built-in speakers and dual locking all come standard. Integrated refrigeration comes standard. The topper and a cash module are ordered as options.

KEYED SERVICE LOCK
Heavy-duty cam lock on the service door

ELECTRONIC LOCK
Independent coded lock as a second layer

ADA-COMPLIANT
Screen and delivery door within accessible reach

Will It Dispense Your Product?

Small cabinet, full mechanics. **Pusher and coil motors mix on the same shelf**, so you are never forced to pick one mechanism for the whole cabinet, and shelf height is reconfigured on site whenever your assortment changes. Every vend rides the vertical elevator down to a delivery door at the foot of the cabinet, so nobody has to reach up for it.

ADJUSTABLE PUSHER LANES

A motorized pusher keeps every facing at the glass and advances the next unit on demand. Dense and repeatable, for cartons, boxes, bottles and anything with a flat, stable base.

MOTORIZED COIL DISPENSING

A coil turns one full revolution and releases exactly one unit. The classic mechanism, best for bagged snacks, sachets, pouches and light irregular packs a pusher cannot hold square.

VERTICAL ELEVATOR

The tray rises to the selected shelf, collects the item and lowers it to the delivery door at the base of the cabinet. Zero-drop delivery for glass, cosmetics and boxed electronics.

CAPACITY & HARDWARE

Shelves	**7 adjustable**
Product selections	**54**
Max. units on board	**336 to 630 units**
Lane types	**Pusher + coil, mixed per shelf**
