ZETA SERIES | COMPACT CLASS

# ZETA 2

## Big Retail Impact. Minimal Footprint.

The smallest kiosk in the range, and the most flexible about where it goes: **bolt the head unit to a wall**, or set it on the included rolling base and stand it anywhere. Five shelves carry 15 selections and 80 to 150 units by motorized coil dispensing. The **32" vertical touchscreen** is the largest in the range and it earns its keep twice: it sells the product, and between sales it runs your advertising. Ambient and non-refrigerated, so no compressor, no drain and no special site work. Cashless payments, an internal camera and built-in speakers come standard, and it is ADA compliant on its base.

## TWO WAYS TO INSTALL IT

SAME HEAD UNIT, EITHER WAY

### WALL MOUNTED · HEAD UNIT ONLY

| HEIGHT | WIDTH | DEPTH |
|---|---|---|
| 39.5" | 27.5" | 13" |

Uses no floor space at all. Mounting height set to suit the site.

### FREESTANDING · WITH BASE

| HEIGHT | WIDTH | DEPTH |
|---|---|---|
| 74" | 27.5" | 27.5" |

Base included. Rolls into place on casters.

**The head unit is identical in both modes. The base is built to the dimensions your site needs, so the screen lands at the right height for the people using it, and it rolls out of the way for cleaning or events.**
