GAMMA SERIES | COMPACT CLASS

GAMMA 10

High-Capacity Retail. A Smarter Use of Space.

The compact member of the Gamma family. Seven adjustable shelves carry 120 selections and roughly 624 to 1,170 units, dispensed by adjustable pusher lanes and lowered to the customer by the gantry system, built for boxed electronics, glass bottles and snack packs. A 21.5" touchscreen, cashless payments, internal and external cameras, an anti-pinch automatic door and dual locking come standard, inside an all-steel cabinet that fits where a full-width kiosk will not. Integrated refrigeration comes standard. The illuminated topper, a cash module and an ADA package are ordered as options.

51"	7	120	1,170
OVERALL WIDTH	ADJUSTABLE SHELVES	PRODUCT SELECTIONS	MAX. UNITS ON BOARD

Will It Dispense Your Product?

Pusher lanes and the gantry system work together inside the Gamma 10. **Every motor is adjustable**: lane width and shelf height are reconfigured on site whenever your assortment changes.

MODULAR LANE WIDTHS

Lane width and shelf height are set to your pack and reconfigured on site. Modular lanes widen for bulky boxes, so one cabinet runs a 9 oz bag next to a boxed set of earbuds.

ADJUSTABLE PUSHER LANES

A motorized pusher keeps every facing at the glass and advances the next unit on demand, then releases it onto the gantry tray. Controlled, repeatable and dense, for packs, cartons, boxes and bottles alike.

GANTRY SYSTEM

The tray rises to the selected shelf, collects the item and lowers it to the pickup door. Zero-drop delivery.

CAPACITY & HARDWARE

Shelves	**7 adjustable**
Product selections	**120**
Max. units on board	**624 to 1,170 units**
