KAPPA SERIES | DUAL MOTOR · DUAL CABINET

KAPPA DOUBLE

Two Cold Cabinets. One Storefront.

Two refrigerated Kappa cabinets flanking a single service column: one 21.5" touchscreen, one cart, one pickup door, 104" of glass. Fourteen adjustable shelves carry 140 selections and roughly 840 to 1,120 units, and **pusher lanes and coil lanes mix on the same shelf**, so every pack gets the motor that suits it. Each cabinet has its own vertical zero-drop elevator. Refrigeration from 4 °C to 25 °C (39 °F to 77 °F), an anti-ant isolation system, cashless payments, internal and external cameras and dual locking all come standard. The illuminated topper and an ADA package are ordered as options.

SECURITY, FOOD SAFETY & ACCESS

KEYED SERVICE LOCK
Heavy-duty cam lock on every service door

ELECTRONIC LOCK
Independent coded lock as a second layer

ANTI-ANT ISOLATION
Sealed, refrigerated food bays that keep insects out

Will It Dispense Your Product?

Inside, the Double is a Kappa, twice over. **Dual motor technology** lets pusher lanes and coil lanes live on the same shelf, so you are never forced to pick one mechanism for the whole cabinet. Two cabinets then let you run two worlds at once, one assortment on each side, still sold as one transaction.

ADJUSTABLE PUSHER LANES

A motorized pusher keeps every facing at the glass and advances the next unit on demand. Dense and repeatable, for cartons, boxes, bottles and anything with a flat, stable base.

MOTORIZED COIL DISPENSING

A coil turns one full revolution and releases exactly one unit. The classic mechanism, best for bagged snacks, sachets, pouches and light irregular packs a pusher cannot hold square.

TWO VERTICAL ELEVATORS

Each cabinet has its own tray. It rises to the selected shelf, collects the item and lowers it to the shared pickup bin. Zero-drop delivery for glass, cosmetics and boxed electronics.
